RE: 2008 Cooperative Fire Rate Agreement

Dear Cooperating Fire Department:

Attached for your completion is the 2008 State Forester's Cooperative Fire Rate (CFR) Agreement Package, which includes the CFR Form and General Provisions along with other instructions and forms needed for setting rates and invoicing. The purpose of this agreement is to show available equipment and personnel to the State Forester. This agreement may also be used when your department is utilized on Federal fires.

Please send a completed and signed CFR form to your District Forester before your current agreement expires. In addition to an original hard copy we would appreciate receiving an electronic copy of the CFR Form via email.

Please contact your District Forester or my office with any questions.

Sincerely,

s/David Behrens
